## PROFILE

I am currently a third-year undergraduate studying software engineering. As a future software engineer graduate I am confident in my maths, computer programming problem, and solving skills. All my experience At college, work and, In my private life have lead me to be able to; work in team-based environments, stressful situations, be able to adapt very quickly for customer/boss needs, see the bigger picture in anything I do, understand consequences of taking certain actions, problem-solving to allow for more efficient solutions. I am autodidact and great self worker but also value and love working in a team. With my time In the military and Blink.gg I know the support I show to my co-workers is unparalleled. My work ethic is the best bar none.

## SKILLS

### PROFESSIONAL

- Programming Languages:  
Java, Python, C, SQL,  
Javascript with HTML&CSS
- Problem Solving
- Client Need Assessment
- Public Speaker
- Critical Thinking
- Autodidact
- Sense of humor
- Languages:  
Fluent In both Hebrew and English

## EDUCATION

### Bachelor of science in Software Engineering

Afeka Academic College 2019-2023

### Network Administrator (Msca)

College of Management Academic Studies 2018-2019

### High School Major in Computer Science

Makif Tet 2012-2015

## PROFESSIONAL EXPERIENCE

### Private Teacher

Leittner // Rishon LeTsyion // 2021 - present

I was working as a Computer Science private teacher at Leittner for university and high school students. I mainly taught Java, C# and Computational Models.

### Proffisonal Video Editor

Blink.gg // Rishon LeTsyion // 2018 - 2019

I started working at Blink.gg as a complete self-taught video editor. I worked on editing promotional and undisclosed projects both alone and in a team. while learning and working with various software such as: Sony Vegas, Adobe Premiere, After Effect and more.

### Commander and Public Speaker

Israel Defense Forces // Tel Aviv // 2016 - 2018

I oversaw a group of public speakers and organizing IDF recruiting and explanation days across the country. During my service I spoke in front of crowds of hundreds at a time talking and explaining our army Ideals and vision.
